PLAN BANKS IN SOUTH AMERICA

LATIN-AMERICAN EXTENSIONS ARE CONTEMPLATED BY UNITED STATES CAPITALISTS

UNDER NEW BANKING LAW

Believed Would Result In Material Trade Extensions—Russian Banks Also Proposed

By Associated Press.

Washington, Jan. 28.—American branch banks in South America, principally in Rio de Janerio, Buenos Ayres, Valpairaiso and Lima, are under consideration by several groups of bankers of the United States. They are planning a Latin-American extension of their institutions as permitted under the new banking law.

Latin-Americans here say the establishment of North American banks in South America would go further than any other agency toward building up trade between the two continents.

RUSSO-AMERICAN BANK SYSTEM IS ALSO PLANNED

By Associated Press

St. Petersburg, Jan 28.—Informal oevrtures were made today by a group of Russions to the ministry of finance with a view of obtaining a charter for a Russian-American bank intended to promote trade between Russia and the United States. The applicants said they were acting in concert with large American banking interests.

Matter Was Designed to Induce Residents of United States to Move to Canada

By Associated Press

Washington, Jan. 28.—How Canada has paid the Western Newspaper Union $42,000 a year for the last twelve years to circulate reading matte rabout the Dominion through the medium of patent insides which the Union furnishes newspapers, was told to the Senate lobby committee today by George A. Joslyn, president of the Newspaper Union. Joslyn said the matter so circulated was marked as advertisement and was designed to induce Americans to emigrate to Canada.

VILLA IN JUAREZ TODAY; DELAYS TORREON ATTACK

Confers With Mining and Smelting Company Officials About Resumption of Work

By Associated Press.

Juarez, Jan. 28.—General Villa arrived here from Chihuahua today. He will confer for several days with representatives of mining and smelting interests regarding resumption of business in rebel territory. He will then return to Chihuahua to direct the attack on Torreon. Villa's presence here will further delay the attack on Torreon, as most of his troops have been sent south from Chihuahua for that attack but have been directed to wait for Villa.

HE FAVORS ELIMINATION IN CONTROLLER'S RACE

Candidate for That Office Writes to One of His Opponents Who is Also a Pro

By Associated Press.

Austin, Texas, Jan. 28.—Charles D. White, candidate for controller today addressed an open letter to T. F. McClure of Anson, one of his opponents suggesting that he and McClure submit their claims to the prohibition elimination convention in Fort Worth February 21. Both are pros. White also has written A. W. Walker, requesting that the elimination meeting indorse either McClure or himself as pro candidate for controller. There is only one anti in this race

By Associated Press

Byhalia, Miss., Jan. 28.—Dunc Johnson, a negro alleged to have shot a wealthy saw mill owner near here Sunday was captured today by a posse in a swamp near Tyro, after three days chase. The prisoner was hurried to Hernando, Mississippi and placed in jail. His victim, J. K. Ingram, is reported to have a chance to recover.

SHELBY CULLOM'S CAREER IS ENDED

FORMER ILLINOIS SENATOR DEAD TODAY IN WASHINGTON AFTER BRIEF ILLNESS

FIFTY YEARS OF SERVICE

Political Career one of Most Active and Notable of Century—Funeral in Illinois

By Associated Press.

Washington, Jan. 28.—Former Senator Shelby M. Cullom of Illinois, died here today after an illness of more than a week. His last words were a wish that he might have lived to see the completion of the National Memorial to Abraham Lincoln, who was his personal friend.

Funeral arrangements are not completed, but burial will likely be in Illinois.

Shelby Moore Cullom's death ended fifty years of continuous public service that had made him a figure in American national life and brought him into official relations with every president from Abraham Lincoln to Woodrow Wilson. President Taft once said of him:

"Why, here's my old friend Uncle Shelby; he comes nearer connecting the present with the days of Washington than any one else whom I know."

As a ploughboy driving his father's oxen over the fresh prairie of Illinois he had known and talked with survivors of the revolution and on the rugged foundations of a life begun in pioneer hardships of a family of twelve children had built a career that took him to the Illinois legislature as a member; speaker of the assembly, two terms in the governor's chair, service in the National House of Representatives and thirty consecutive years in the United States Senate.

His nearest living contemporary probably is "Uncle Joe" Cannon whose senior he was some seven years by birth and some three years in national service.

Native of Kentucky.

Andrew Jackson was president of the United States when Mr. Cullom was born in 1829 down in the Elk Spring Valley of Kentucky, near the Cumberland where the Cullums of Maryland and the Coffeys of North Carolina, drifting westward with the tides of immigration that set in at the close of the revolution, founded their early home.

"During the year 1829," Mr. Cullom recently wrote to illustrate the epoch in which he began life, "the Crown of Great Britain descended from King George the Fourth to King William the Fourth; that reign passed away and I have lived to see the long reign of Victoria come and go; the reign of King Edward come and go and the accession of King George the Fifth. Charles the Fifth ruled in France, Francis the First in Austria, Frederick William the Third in Pressuia, while Leo the Twelfth governed the papal states, the Kingdom of Italy not yet having come into existence. The United Kingdom of Great Britain and Ireland had not yet a population of 24,000,000 all told. No man who had not served his country in some capacity in the revolutionary war had been elevated to the presidency of the United States and this was the case until 1843."

Times and events in his own country were no less stirring and his part in them was a marked one. Kentucky was a slave state at his birth, the controversy which was to hatch into a great civil war was in the process of incubation in fact the Cullums moved to Illinois to be in a free state and Chicago then was a small village. The older Cullom was then a friend of Lincoln's, recommending the struggling backwoods lawyer to prospective clients. Young Cullom's first recollection of the future war president was under such circumstances. Scraping together the rudiments of an education gained by toiling over rough primeval roads he became successively a student and a lawyer, being admitted to the bar at Springfield in 1855.

His Political Career.

When he became city attorney of Springfield he launched upon a political career which for a record of unbroken service, is unchallenged at exceeding that of any other American. Among his first political experiences was the novelty of being elected and defeated at the same election. He was elected to the legislature and defeated as an elector on the Fillmore ticket. Then came the historic Lincoln and Douglas debates and Cullom's intimate association with Lincoln, whom he followed into the ranks of the Republican party. He presided over the session of the Illinois House at which after Fort Sumter had been fired upon, Stephen A. Douglas appeared and made his dramatic plea for the preservation of the Union. During the first of President Lincoln's second term Mr. Cullom came to the National House of Representatives and began a work which was practically interrupted only when he served two terms as governor of Illinois. Lincoln was assassinated soon after Cullom entered Washington life and the young legislator was a member of the committee that demanded the return of the president's body to Springfield. Then when the country began

EX-SENATOR SHELBY M. CULLOM

to recover from what seemed a final blow and the reconstruction set in with the Thirty-ninth Congress, Cullom began his service with the Illinois delegation and with such colleagues in Congress as Logan, Wentworth, Blaine, Conkling and Hayes and Garfield, both of whom attained the presidency.

After six years in the House during which he had seen the impeachment of Andrew Johnson and taken part in the making of a most critical period of American history, he returned to Illinois vowing never again to take office, only to become speaker of the legislature and later governor. At the Philadelphia convention he placed Grant in nomination for his second term in which is said to be the shortest nominating speech ever delivered. It contained seventy five words.

Senator Since 1883.

He entered the Senate in 1883, a spry, active man of fifty-four, he left it in 1913 a fading, tottering man of eighty-four but with a brain still bright and active. He used to tell a story of how one day seeing Senator Vest, very old, feeble looking and dejected, he said to Senator Morrill, who then was some eighty six.

"Go over and cheer Vest up a bit," whereat Morrill walked over and slapping Vest on the shoulder said, "Cheer up old man, why you're nothing but a boy."

Down through the administrations of Cleveland, Harrison, McKinley, Roosevelt, and Taft he held important chairmanships when his party was in power, finally that of the foreign realtions committee, generally considered the most important of the lot. He had been chairman of the commission which devised a form of government for the Hawaiian Islands and after their annexation and had been chairman of the committee which first reported a bill for the creation of the Interstate Commerce Commission. His work as chairman of the foreign relations committee since the Spanish war is comparatively fresh in the public mind. He was an ardent supporter of the peace treaties proposed by President Taft and which were so emasculated by the Senate that they never were ratified.

No Fear of Death.

During the last few years his friends had seen him slowly fading away in body and he became so feeble that his voice in the Senate chamber was not heard farther than the clerk's desk. His term ended March 3, 1913, and he was appointed chairman of the Lincoln Memorial Commission created by Congress to superintend the erection of the $2,000,000 memorial in this city. The one wish expressed on his death bed was that he might live to see the completion of the national memorial to his old friend. His memories of fifty years of public service finished only a few months before his final illness overtook him, concluded after this manner.

"I have no great fear of death, except the natural dread of the physical pain which usually accompanies it. I certainly wish beyond any words I have power to express that I could have greater assurance that there will be a reuniting with those we love and those who have loved us in some future world; but from my reading of the scripture and even admitting that there is a hereafter, I cannot find any satisfactory evidence to warrant such a belief. Could I believe that I could meet the loved ones who have gone before, I do not know but that I should look forward with pleasure to the passing across. Not having this belief, I am quite content to stay where I am as long as I can, and finally when old Charon appears to row me over the river Styx I shall be ready to go."

EVIDENCE ENDS IN CARTER CASE

ARGUMENTS START THIS AFTERNOON IN DISTRICT COURT MURDER TRIAL

TEN WITNESSES HEARD

Physicians Testify As To Nature of Wounds and Their Probable Cause

Testimony in the case of the State vs. Sam Carter, charged with murder in connection with the death of Robert Cobb, Jr., last May was completed in the district court Wednesday afternoon and arguments started after 2 p. m.

Less than ten witnesses testified in all. Doctors Yantis and Everett Jones testified concerning the nature of Cobb's wounds and the results of the autopsy. Four wounds were described one at the left of the point of the chin, one at the bridge of the nose, one on the left temple and a fourth at the back of the head. The physicians gave it as their opinion that Cobb had died as the result of a hemorrhage of the brain caused by violence from without.

Dr. Jones said blod clots were found in the brain beneath the wounds.

Mrs. Robert Thorburn, sister of the man for whose death Carter is being tried, was also a witness Tuesday afternoon, being on the stand when recess was taken. She was again placed on the stand Wednesday morning. She also testified concerning the nature of the wounds and their effect.

Another witness for the state was W. F. McGowan, bartender at the Gem bar on duty when Cobb was struck by Carter.

Witnesses for the defense included the two young men who entered the saloon with Carter on the night of the trouble. Testimony was introduced in an effort to show that Cobb had been injured previous to that time.

WOULD UNIONIZE EMPLOYES OF NATIONAL GOVERNMENT

Washington, Jan 28.—A general investigation is to be conducted by organizers of the American Federation of Labor throughout the country in an effort to unionize the 300 government employes, Secretary Morrison of the Federation of Labor announced today. This step is in accordance with a resolution adopted by the executive council of the Federation in session here last week. It is proposed, according to Mr Morrison, to bring as many government employes as far as posible into existing unions and then create new unions for those whose line of work has not yet been unionized.

OKLAHOMA'S JIM CROW LAW VALID

IS UPHELD BY UNITED STATES CIRCUIT COURT OF APPEALS TODAY

NEGRO PHYSICIAN LOSES

Had Sued for $50,000 Because of Attempt to Forcibly Enforce the Statute

By Associated Press

St. Louis, Jan 28.—The Jim Crow law of Oklahoma was upheld by the United States circuit court of appeals in a decision here today. The court affirmed the decision of the district court at Kansas City, which had refused to award William J. Thompkins damages of $50,000 because of an attempt to enforce the Jim Crow law against him.

Thompkins, a negro physician bought a ticket from Kansas City to McAlester, Oklahoma, over the Missouri, Kansas and Texas; he also bought a Pullman ticket.

When the train reached the Oklahoma line he was informed he must leave the white car and enter a negro coach. He refused and was ordered off the train. A disturbance resulted, Thompkins was arrested and fined fifteen dollars.

HIGH WATERS SUBSIDE IN CALIFORNIA TODAY

By Associated Press.

San Francisco, Jan. 28.—Rainclouds were vanishing and high waters subsiding today throughout California and from all parts of the State came reports that the worst of the storm of the season had done more good than harm. Farm lands, irrigation systems and mining operations have profited by the downpour and the overflows.

Normal train service was restored except on the Southern Pacific coast line which may not be able to resume through service for a week. Hundreds of passengers, three days behind time, are still on the road, but expected relief today.

DEPORTATION OF STRIKE LEADERS

PROCEEDINGS BEGUN AGAINST CABINET MEMBERS WHO CAUSED IT

SUPREME COURT'S ACTION

Judge Says He Would Have Enjoined Government If He Had Known Purpose

By Associated Press.

Pretoria, Union of South Africa, Jan. 28.—Court proceedings against the ministers of justice, defense and interior, because of their action in deporting the South African strike leaders yesterday, began promptly today. The supreme court judge, Sir John Wessells, granted an application for leave to apply to attach these three ministers for contempt of court.

The judge declared if he had yesterday possessed the information he has today he would have granted an injunction restraining the government from deporting the men.

The government deported ten labor leaders, including President Watson and General Secretary Bain of the Trades Federation. The men were put aboard a steamer bound for England.

This action was taken by virtue of martial law, which still is in force in Natal from which province the deportations can take place legally. Measures will be taken to prevent the men returning to any port of South Africa.

THREE MORE DAYS FOR POLL TAXES

1100 MARK IS PASSED IN CITY, STILL FAR BELOW PROPER FIGURE

COUNTY NOW ABOVE 2200

Big Payments Must Be Made In Period Remaining If Desired Total Is Reached

With only three more days for poll tax paying Wichita Falls lacks 800 polls of having paid the 2,000 which it is believed there are here. City poll tax receipts passed the 1100 mark Wednesday afternoon and at the present rate the total will be around 1500.

At two o'clock Wednesday afternoon 2204 receipts had been issued at the court house and it is now believed the county receipts will go to 3,000, although Electra is falling behind last year's record. For several years past Wichita Falls has paid more than half as many receipts as were paid in the county. Indications now are that Wichita Falls total will be less than the county's total.

Receipts issued in each precinct in the county up to two o'clock Wednesday afternoon follow:

No. 1, City Hall	270
No. 2, Court House	314
No. 3, Allendale	25
No 4, Cashion	51
No. 5, Burkburnett	194
No. 6, Iowa Park	175
No 7, Denny	36
No. 8, Beaver Creek	15
No 9, Clara	43
No. 10, Electra	360
No 11, Bridge	101
No 12, Car Barn	281
No 13, Court House	340
Total	2204

POSTOFFICE IS ROBBED OF $400 AND STAMPS

By Associated Press.

Abilene, Texas, Jan. 28.—The postoffice at Breckinridge, Stephens county, was robbed early today, the safe was blown and about $400 in currency stolen. In addition stamps were stolen, but the amount is not known.

LATE PLANTING DOESN'T CHECK THE BOLL WEEVEL

Extensive Experiments Conducted By Government In Louisiana Show Fallacy of Theory

By Associated Press.

Washington, Jan. 28.—The theory that the boll weevil can be controlled by late planting of cotton than by early planting was exploded as the result of experiments conducted by the bureau of entomology of the department of agriculture. In many experiments as to whether late planted cotton will produce a satisfactory result, all results are said to have been negative.

Because of late planting contended the department's experiment had not been conducted on a large enough scale, an unusually large experiment was conducted in Louisiana last year. The department's conclusions were based on the Louisiana results.

KATY AGREEMENT IS THOUGHT SURE

NO OFFICIAL ANNOUNCEMENT MADE, BUT DECISION REPORTED REACHED TODAY

BUILDING OF EXTENSIONS

Details of Reported Settlement are not Known But News Comes on Reliable Authority

By Associated Press

Austin, Texas, Jan. 28.—The so-called Katy merger suit which involves penalties of more than $100,000,000 is to be compromised and settled. While no official announcement has been made, it was learned today that an agreement had been reached.

The details have not been given out. The decision to compromise came at ten a two days conference. It was reported on reliable authority that under terms of the settlement the Katy system will be required to make certain extensions.

As to the question of penalties, it has not been disclosed how much, if any, will be recovered. The agreement is now being reduced to writing.

MANY RESOLUTIONS FOR GOOD ROADS ADVOCATES

State Highway Commission, Border Highway and Use of State Convicts Advocated

By Associated Press

Fort Worth, Texas, Jan. 28.—Resolutions calling for the creation of a state highway commission of three members, the construction of a border highway by the federal government along the Rio Grande, the use of state convicts upon the roads and a prohibition against use of narrow tires upon roads improved by bond issues have been presented to the committee of the Texas Good Roads Association here. They will be reported to the closing session of the convention.

Considerable discussion is in prospect over the recommendation that convicts be worked on public roads.

AMERICAN AND GERMAN SAILORS PROTECT LEGATIONS IN HAITIEN PORT TODAY

PRESIDENT IS REFUGEE

Spends Night on Board German Cruiser in Harbor—Disorders Suppressed and Quiet Prevails

By Associated Press

Port au Prince, Haiti, Jan. 28.—Armed detachments of American sailors were today on guard at the American legation, the cable station and the French hospital, as a result of the revolution in Haiti. German marines protected other legations and the German stores in this city.

Fusillades continued in all quarters of the city throughout the night, and there were numerous attempts to pillage houses and stores. These were quickly suppressed and the city is now quiet. A citizens' committee of public safety has been formed.

President Orest and his wife remained all night on board the German cruiser Vineta in the harbor.

JURY TO TRY WOMAN IS FILLED AT PLAINVIEW

Many Disqualify Because of Opposition to Death Penalty When Woman is Defendant

By Associated Press

Plainview, Texas, Jan 28.—Almost 100 men were examined before the jury was completed to try Mrs Bertie Muncy, charged with the murder of her husband.

Many of those who failed to qualify were excused because of kinship or friendship with the Muncy's. Others would not inflict the death penalty on a woman.

Judge Kinder announced today no person under twenty would be allowed in the court room during the trial either with or without their parents' permission

AFTER FIVE YEARS

Ninthrop Child Was Restored to Health by Vinol

Five years ago our little girl had severe attack of diphtheria which left her subject to bronchitis and stomach trouble She has been almost constantly under medical treatment I have tried also two or three remedies containing cod liver oil but found her stomach rebelled against the oil Reading your description of Vinol I decided to try it and did so with most astonishing results I can't begin to tell you how she has improved because you do not know what a little sufferer she was for five years She has gained ten pounds since she commenced to take Vinol and the story of what Vinol has done for her is only half told in this letter Mrs Adelaide Mulloy Winthrop, Mass

Vinol contains all the healing curative properties of cod liver oil without the oil, and tonic iron added That is why it helped this little girl after other remedies had failed

We ask mothers of weak sickly children to try Vinol on our offer to give back your money if it fails to help them Miller Drug Store

BEN-HUR IS REPEATED TO TWO CAPACITY HOUSES

Immense Crowds Witness Production —Manager Cohen Loud in Wichita Falls' Praise

Ben Hur was repeated yesterday afternoon and last night at the Wichita Theatre before two audiences that taxed the capacity of the building The matinee house was the largest ever recorded at an afternoon performance here, while an idea of the size of the night crowd may be obtained from the fact that scores paid $1.00 for standing room

Practically the same cast was used yesterday as on Monday night and the production was presented with the completeness and splendor that characterized its opening performance

E J Cohen manager of the Ben Hur company is most enthusiastic in praise of Wichita Falls and expects always to be a booster for what he terms the livest little city in the world The problem of staging a production like Ben Hur in small towns is only equalled by the task of making the exposition a financial success and in both of these particulars Wichita Falls went a far ahead of expectations as to win the admiration of Mr Cohen and in fact the whole company Mr Cohen said that this was the smallest city that the production had ever played In fact he would hardly believe it when told that the population was only 15,000 He said the stage of Wichita Falls was larger and more accessible than that of any other theatre in the state and that the audiences which turned out to see the piece were fully as large as any they had met with

He was loud in his praise of Manager J B Marlow for having the audacity to play the piece here on such a heavy guarantee and at such low prices Only seven other of the larger cities of Texas saw Ben Hur this season and Houston San Antonio and Dallas paid just the same prices while in some of the others the prices were higher

Mr Cohen is also enthusiastic about the city itself Manager Marlow of the Wichita Theatre, took him over the residence section and through the factory district, the glass factories especially interesting him He was astonished at the evidences of growth and progress on every hand

Mr Cohen claims that the success here of the Ben Hur production will mean that the city will in the future get many more of the best plays both from the Klaw & Erlanger Company and others as well as the managers will realize that a city that can take care of Ben Hur can make good with every other good attraction

ASK BUSINESS MEN'S AID IN POLL TAX CAMPAIGN

Chamber of Commerce Sends Out Final Appeal to Making Showing Break Record

A final appeal to local business men to have their employes pay their poll taxes was sent out today by the poll tax committee of the Chamber of Commerce The appeals are accompanied by blank powers of attorney which those who do not have time to pay their taxes in person may fill out The letter follows

To the Merchants Manufacturers and Business Men of Wichita Falls Gentlemen Again we wish to call your attention to the fact that Wichita Falls is falling short of what is expected in the payment of poll taxes and to ask that you take the enclosed powers of attorney and see that all your men pay their poll taxes before February 1st Additional copies of these blanks will be furnished if you will notify this office

If Wichita Falls expects to keep pace with the other progressive cities of Texas and wishes to stay in the procession of rapidly growing cities we must put our shoulders to the wheel and make our poll tax receipts this year compare well with other cities of similar size

Kindly give this matter your prompt attention an dadvise us what success you meet We thank you for your co operation Yours very truly

CHAS W DEAN Chairman Poll Tax Committee

MISSOURI WOMEN FIGHT FOR VOTE FOR SELVES.

Columbia, Mo., Jan. 28.—With suffrage to east of them and suffrage to west of them, Missouri suffragists are today organizing a campaign which they expect will secure "votes for Missouri women" and make a "white strip" on the equal suffrage map from Indiana to Utah. Initiative petitions for a vote suffrage amendment to the constitution today are being circulated in two-thirds of the congressional districts of the state and more than half of the 23,000 signatures necessary have already been secured, according to Mrs. Walter McNab Miller of Columbia, Mo., president of the Missouri Equal Suffrage Association.

"Many people have the wrong idea of woman suffrage," said Mrs. Miller. "Missouri women are not going into this campaign with any feeling of antagonism. We feel that the men have too much to do. We have been asking our husbands in the past to earn the living and at the same time carry all the burden of public life."

HELP THE KIDNEYS.

Wichita Falls Readers Are Learning the Way

It's the little kidney ills—
The lame, weak or aching back—
The unnoticed urinary disorders—
That may lead to dropsy and Bright's disease.

Help them with Doan's Kidney Pills,

A remedy especially for weak kidneys.

Doan's have been used in kidney troubles for 50 years.

Endorsed by 30,000 people—endorsed at home.

Proof in a Wichita Falls citizen's statement.

C. N. Harrison, 1925 Eighth street, Wichita Falls, Texas, says: "About two years ago I had great trouble from my kidneys. Doan's Kidney Pills had been used in my father's family and proved reliable for removing kidney annoyances. I also had taken them for lumbago, I again took this remedy and it removed the lameness across my back and other troubles caused by my kidneys."

The Valliant Dust.

So long it is since the eddying world
Spun for itself a being; ah, since then,
Into the sterile waste of darkness hurled
Have gone to dust so many goodly men.
So often through the seasonal way and wane
From death to death by the strange gate of birth,
Strong men have slain each other and been slain,
And given their body's pride to the gray earth.
Under the plow there is not any clod
Cumbering in late March the fruitful ground,
But was the fleshly raiment of a god,
Whom the earth clips within its narrow bound.
The thin house dust one lightly casts aside
Somehow distills the strength of armored men
And fragrance of all beauty that has died;
This common dust that rides the wind again
And like the soul that there inhabited,
No more beholds on heights far off the gleam
Where on the dim innumerable dead
Shines down the years the imperishable dream.

"PIG KILLING" ENJOYED BY SUNDAY SCHOOL CLASS.

The boys in Mrs. J. W. Culbertson's Sunday school class were participants in a "pig killing" Tuesday evening at the home of Mrs. Culbertson. Several months before the hostess had entertained the class and had given each boy a china pig in which they were to deposit money earned for the organ fund for the new Presbyterian Church. The pigs were brought in having been "fattening" for some time, each boy was provided with hatchets and the slaughter took place. The "pig money" amounted to about fifteen dollars. This with money previously raised makes twenty-two dollars which the boys have on their pledge of twenty-five dollars. New pigs were given out for further fattening. Music was enjoyed during the evening and dainty refreshments were served. The boys in this class present were: Alexander McKee, Leslie Howard, Max Brookbanks, Frank Nicholson and Lynn Campbell.

MRS. HARRY MAY HOSTESS TO TUESDAY BRIDGE CLUB.

Mrs. Harry May was hostess to a very pleasant session of the Tuesday Bridge Club. Five tables of players enjoyed the game of the hour for sometime, the favor, hand-made handkerchiefs going to Mrs. Wade Walker. A delicious salad plate made the very acceptable luncheon offering which was served to Mesdames McGregor, Little, Walsh, Wade Walker, Maer, R. E. Huff, Roberts, Miller, Reese, Toney, DuVal, Marchman, Montgomery, Griffin, Morris, Marcus, Abe Marcus, Murchison, Misses Sherrod, Shackleford and Avis.

LADIES BIBLE CLASS IS PLEASANTLY ENTERTAINED.

The Ladies Bible Class of the M. E. Church, South, was very delightfully entertained Tuesday afternoon by Mesdames Wells and Rahl at the home of Mrs. Wells on Tenth. Some time was spent in sewing and conversation and a most interesting musical program was given, adding further to the enjoyment of the guests. Late in the afternoon the hostesses, assisted by Mesdames Brown and Thomas served a delightful salad course accompanied by sandwiches, pickles and tea. Those present were: Mesdames Brown, Anderson, Scott, Thomas, Niles, Frank, Downing, Gwinn, Clark, Hayule, Nolen, Smith, Shelton, Giddings, Rogers, Williams and Miss Scott.

CRESCENT SEWING CIRCLE IS ORGANIZED TUESDAY

The Philathea Class of the First M. E. Church met with Miss Hazel Hunter last Tuesday afternoon and completed the organization of a sewing circle, which was begun last week, naming it the Crescent Circle. Business was combined with pleasure at this meeting and it was decided for the Circle, among other things to buy two or more pipes of the new pipe organ which will be installed in the church. At the end of the pleasant afternoon the hostess served a delightful salad course to the following members: Mesdames M. S. Coe, Chas. Montfort, Gibbs, Burch and Misses Agnes Andree, Altha Friberg, Lettha Muegraves, Jessie Roberts, Lillian and Ruby Bachman.

The teachers in the Sunday school of the M. E. Church, South, will meet Thursday evening at 7:45 at the church. Judge Martin will teach the lesson.

A membership campaign has been waging in the Alamo Mothers Club for the past several weeks, the two sides being under the leadership of Mrs. W. J. Bullock and Mrs. T. J. Leicham. The campaign was closed last Friday with Mrs. Leicham's side in the lead. The losing side will entertain the others Friday afternoon at the Alamo school. Between forty and fifty new members were gained in the campaign.

The Mizpah Band, the Young Woman's Missionary Society of the Central Presbyterian Church will give a reception and art and curio exhibit Friday evening at the home of Mr. and Mrs. Phil Kerr. The public is cordially invited. A musical program will be given and refreshments served.

Astudents recital will be given Friday evening at the College of Music and Art. The public is invited.

The art department of the College of Music and Art will give a studio tea Saturday afternoon at the college.

Miss Lillian Chancellor will leave this afternoon for an extended visit with relatives and friends in Fort Worth and Dallas.

MR. AND MRS. H. E. POUNDS ENTERTAIN AT DINNER

Mr. and Mrs. H. E. Pounds entertained a few friends at six o'clock dinner Saturday evening, Jan. 24 at their home, 2011 Tenth. A cut glass vase filled with carnations formed a very attractive centerpiece and the covers were marked by Dutch place cards and individual bouquets of sweet peas. An elaborate six course dinner was served to the following: Misses Agnes Reid, Lillian Avis, Genevieve Carver, Ruth Christal, Eddie Carver, Messrs. Bullick, Blair, Thomas, Felder and Brown.

How You May Throw Away Your Glasses

The statement is made that thousands wear eyeglasses who do not really need them. If you are one of these unfortunates, then these glasses may be ruining your eyes instead of helping them. Thousands who wear these "windows" may prove for themselves that they can dispense with glasses if they will get the following prescription filled at once. Go to any active drug store and get a bottle of Optona; fill a two ounce bottle with water and drop in one Optona tablet. With this harmless liquid solution bathe the eyes two to four times a day and you are likely to be astonished at the results right from the start. Many who have been told that they have astigmatism, eyestrain, cataract, sore eyelids, weak eyes, conjunctivitis and other eye disorders, report wonderful benefits from the use of this free prescription. Get this prescription filled and use it; you may so strengthen your eyes that glasses will not be necessary. Thousands who are blind or nearly so, or who wear glasses would never have required them if they had cared for their eyes in time. Save your eyes before it is too late! Do not become one of these victims of neglect. Eyeglasses are only like crutches and every few years they must be changed to fit the ever-increasing weakened condition, so better see if you can, like many others, get clear healthy, strong magnetic eyes through the prescription here given. NEWS NOTES FROM NORTH TEXAS STATE NORMAL.

Denton, Texas, Jan. 26.—For some years it has been a custom observed at the Normal to celebrate in a quiet way the enrollment of the student whose order of entrance signified the attainment of the three repeated digits; this past week there was much excitement at the college and it was intensified when Nos. 999 and 1000 entered on the morning of Jan. 20.

A remarkable feature of this year's attendance is the fact that about two-thirds of the students are enrolled in the senior class. This condition is due to the addition of another year's work to the course of study, a change which will go into effect at the beginning of the next regular session, so that this is the last year in which diplomas are granted upon the completion of a three years' course.

Wichita county is represented by the following students: Eula Crow of Iowa Park; Lela and Nora McCarty of Electra; Ella Powell of Burkburnett; Nomie Melver and Opal Shaver of Wichita Falls.

A force of men are now at work on the basement of the new manual arts building to be erected at the Normal and work is progressing very rapidly. It is being erected at a cost of $55,000 appropriated by the last legislature. The manual training and domestic art students have and are now doing their class work in the new science building which is so crowded that the need for the new quarters was imperative and this building will form a substantial and handsome addition to the college campus buildings when completed.

The Normal College athletic field is being put in good condition. The grounds are being leveled for a baseball diamond and on another part of the field tennis courts will be built. The students are showing strong interest in all kinds of athletics since the property has been secured.

In my judgment there is something more to the grocery business than merely taking orders from customers either personally or over the phone and delivering the goods at the house.

My idea of running a grocery store or food store is to give every customer the best variety and best table service that can be had. This includes such matters as studying tastes—knowing what people like and then finding the best for them.

To me the grocery business is a pleasure as well as a living. I take considerable pride helping my customers get exactly what they want and sometimes anticipating their wants and getting good things for them that I haven't had before.

If that kind of service appeals to you I am sure you and I will both enjoy each others acquaintance.

UNION LABEL

Wichita Falls, Texas, Jan. 28, 1914

The weather man predicts a cold wave is due to strike Texas soon. We need it badly, not only for crop raising purposes, but in order to give our ladies a chance to wear the beautiful and expensive dresses and furs they purchased for winter wear. So far weather conditions have not been such as to give them a chance to display *their fine toggery.*

Texas women are not clamoring to any great extent for suffrage. Yet perhaps it is because they are waiting for things, politically, to get a little bit cleaner before they get into politics. It's not at all a bad idea.

Regardless of what you may think about the just or unjustness of the law, unless you pay your poll tax you can't vote in Texas. You only have but three more days in which to qualify as a voter. If you reside in the city, the tax is $1, but in addition to that the county and state poll tax is $1.75. The payment of one and not the other is just about as bad as not paying either, as both must be paid before you can vote.

In 1913 the wheat crop of Texas amounted to 13,650,000 bushels, the largest ever before produced. There were 780,000 acres planted to wheat in 1913, and the average yield was 17.5 bushels per acre. This year conditions for wheat growing has been more favorable than last year; the acreage planted to wheat last fall in this and adjoining counties is larger than last year, and with a little cold weather now, followed later by a few spring rains, this section of the state should produce the largest wheat crop in its history. At any rate, we are expecting this to happen, and up to this date everything in the wheat growing line looks favorable.

*"Total amount paid in, $26,548,*111.05; profits $8,444,796.51." That's a transcript of the Interstate Commerce Commission's report on the Frisco receivership. And Texas, whose alleged anti-railroad laws are the perennial subject for harping from certain interested quarters, was the biggest "goat" of all. The St. Louis, Brownsville and Mexico, as we find from the report, cost $3,981,000. The syndicate building the road took down for its profits the single investment $3,011,928.95, almost 100 per cent. The report does not go into the details; and this exorbitant sum may not have been included in the enormous bonus in lands given for the construction of the road. The syndicate was composed of Frisco officials and directors and a few bankers on the "inside;" they were supposed, rightfully, to represent the stockholders' interests. But *the commission's transcript shows* how faithlessly those in control represented that interest, and how faithfully they looked out for their own.—Denton Record and Chronicle.

Doubtless there are some laws passed by the Texas legislature governing the building and operation of railroads that are unjust, and for that reason the railroad promoters are not doing much promoting, but the cause for their enactment was brought about by just such deals or tricks that were pulled by the Frisco people. The railroad was unable to pay its stockholders dividends simply because they had been robbed by those whose business it was to protect their interests.

IT LOOKS LIKE BALL

To the man on the outside who has read the proceedings of the Fort Worth meeting of prohibitionits it looks like the tide is setting toward a Houston man—Thomas Henry Ball.

While the Chronicle does not favor statewide prohibition as a remedy for the liquor evil, it feels that the state is to be congratulated upon the fact that the manifest trend of choice is toward a man big enough in many ways to measure up to the gubernatorial *standard of earlier days.*

His vision is far-reaching enough to see the pressing social, industrial and economic needs of the state.

He is in touch with the big things, and he is a practical man of business.

He was concededly efficient as a congressman and national legislator, and his integrity is conceded.

He is a native of East Texas, born in the historic town of Huntsville, and has always had the courage of his convictions.

He will not put his personal ambition above the interests of a cause to which he believes, nor refuse to abide by the choice of the majority of the organization of which he is a member.

He is not a one-idea man who believes the scalps of saloon keepers hung to his belt is evidence of ability to administer the affairs of a great and growing commonwealth which are transcendantly greater than any mere question of the exercise of the "police power" for the correction or abolition of one evil.

The Chronicle does not know that he would accept the nomination. It feels sure he has not schemed to secure it. But it believes that if he were chosen to discharge a duty to the cause he he represents and to the state to which he is devoted, he would serve, though the sacrifice would be great.

Texas needs a clean, broad-guaged man of affairs—one will fill the executive chair and not rattle around in it. Putting aside the question of local pride and personal feeling, and looking at the question with that impartiality and calmness which its importance deserves, The Chronicle believes Mr. Ball measures up to the requirements of the hour.—Houston Chronicle.

THAT GOVERNMENT PIPE LINE

The Oil City (Pa.) Derrick, said to be the organ of Standard Oil, looks with disfavor on the proposed government pipe line. It says:

"A resolution introduced by Senator Gore, of Oklahoma, calling for an investigation of the feasibility of the Government laying a pipe line from the Oklohamo fields to the gulf, passed the Senate last week. The same resolution incidently called for information as to the advisability of the *Government developing the lands of* its Indian wards, instead of leasing them to individual operators. It maybe presumed that the resolution passed the Senate without discussion, largely out of courtesy to the Senator introducing it, as the matter was supposed to largely affect his own state. That it passed by no means shows that the upper body favors the proposition. The first hearing upon the plan was scheduled for Saturday night, at Washington, but a telegram received from there says it has been indefinitely postponed. The postponement is reported to have been caused by the failure of the persons from Oklahoma, who were interested in the hearing, to appear.

"We may presume that the failure to appear was largely a matter of indifference. Those most interested would naturally be the producers who have developed the fields of Oklahoma and proven the existence of their wealth of oil. Their interest would be toward the natural and rational exploitation of the country as it has been carried on in the past. Their efforts have added to the wealth of the country and they played their part energetically. For the Government to now enter the oil producing and transporting business, would be a discouragement to the producer, as well as a shock to the country. It is is an action it has no right to take.

"The movement only goes to show that the foolkiller is often remiss in his duties."

WICHITA FALLS AND HER FUTURE

In an interview with a Times reporter, Dr. J. W. Hill said:

"I believe without a doubt in the future of Wichita Falls. I believe that within five years from today, all things being equal, Wichita Falls will contain thirty thousand inhabitants. Realty is very high now, but in my judgment it will continue to advance—especially in the business district and along our more prominent resident streets. It occurs to me that we ought to get ready for this enlarged condition; and that now, not later, we ought to lay the foundation of our public institutions, and not wait as Dallas did, until property becomes so high as to make almost prohibitive the establishment and maintenance of necessary public institutions. We ought to lay out parks, play grounds, build, in part at least, a hospital, and establish the beginning of what may finally become a splendid and helpful Y. M. C. A. The most pressing need at this point. Our grand jury informs us that our young men are being ruined by bootleggers and pimps and other panderers to the baser passions of our youth. Small wonder. Just thing of it! There is no place for our young men to assemble in a social way, except in a pool hall, club room or saloon, and the biggest liar in town will not deny that these places hurt rather than help to build up and strengthen the *moral fibre of young men.* If we are going to keep saloons here, with the attendant evils of prostitution and all other vices that cluster around the liquor traffic we ought to do something it seems to me, to offset and counteract these hurtful and nefarious evils. I know of nothing more helpful than the establishment of a Y. M. C. A., with a gymnasium, baths, reading room and the decent atmosphere that envelops it all. The Pastors Association has taken this matter up with the railroads, hoping to get such help as was given to the people of Childress in the establishment of the magnificent plant at that place. What we will be able to do in this respect remains to be seen; but the need of the institution ought to commend itself to every decent man in town.

"I notice that our club women are insisting on the enforcement of the curfew law. This astonishes me not a little, as I understand that our officers take an oath to enforce the laws without having to be begged to do so by a lot of women. If we have such a law, it certainly needs enforcement. We are raising up a lot of young burglars and anarchists in this town who a little later on will wake up the sleepiest citizen among us. Let no man suppose that because he lives in a decent part of the city he can escape the ruin when it comes. Vice is like miasma: it may be bred in a swamp but it will spread out and kill the people who live on the highlands.

"Another thing that seems to me to be very much needed is the organization of a society for the prevention of cruelty to animals. There are poor old underfed horses being worked on these streets whose owners ought to be fined for their cruelty to them. Then I have seen some horses belonging to well-to-do people pulling loads up these steep hills which were far too heavy for their strength. To *add to the crime of it,* I have seen these poor animals unmercifully beaten because they did not do that which was impossible to them. I have been a member of such a society and I know the good that comes from it. Let some of our progressive citizens call a meeting for such an organization and I, for one, will be there before the door opens."

RUSSIAN DANCERS MAY BE STAGED IN THIS CITY

Anna Pavlowa and Troupe May Be Brought Here February 28—Negotiations Under Way

Madam Anna Pavlowa and her famous organization of Russian dancers and musicians may be brought to Wichita Falls next month. Messrs. Marlow and Davidson of the Wichita Theatre have received a telegram offering to bring this organization here for a guarantee of not less than $2000 on February 28th. While the offer has not been definitely accepted Messrs. Marlow and Davidson are spending some good money in negotiating to get Madam Pavlowa.

Madam Pavlowa's company is one of the greatest attractions in the theatrical world. The Dallas Chamber of Commerce will bring this attraction to Dallas as one of the features of National Corn Show week, but were unable to engage her for more than one night.

The organization comprises forty select solo dancers, including Novikoff, premier danseur classique; Zealrich, premier danseur caracteres of the Imperial opera house of Moscow, and Cecchetti, the premier mime of the Imperial opera house of St. Petersburg. Their repertoire consists of ten ballets, staged with characteristic and rich scenery. Most of the scenery and costumes designed by the famous Leon Bakast and Boris Annisfield.

RENTROP SAYS HE WILL ACCEPT DELIVUK'S OFFER

Before leaving this afternoon for Del Rio where he is scedulled for a match Thursday night, Charles Rentrop, the German wrestler, said that he would accept the challenge of Charles Delivuk, published in The Times of yesterday. Rentrop defeated Delivuk here in a previous match.

SAYS NORTHWEST TEXAS GOOD PEANUT COUNTRY

Agricultural Agent Webb Urges That Farmers Pay More Attention to Goober Crop

The value and advantages of the peanut as a Northwest Texas crop are set forth by Henry E. Webb, agricultural agent of the Fort Worth & Denver and Wichita Valley railways. In a statement just issued, Mr. Webb says:

"From our earliest recollection until a few years ago the average Texas farmer associated the name 'peanut' with county fairs, circuses, etc. Today their value to the average farmer is a leading subject in all our farm papers.

"By reading and observation, the writer has been fully convinced that there is nothing that would pay the farmers along the Denver lines a greater interest on the investment than a few acres of peanuts. First the peanut is recognized as a great drought resisting plant, as shown in almost every instance where it was planted last year. Second, that they are adapted to every soil and climate in Texas, has been proven by the fact that you can find them growing in East, North and South Texas; you can find them growing on the staked plains.

"I believe that every acre of agricultural land adjacent to the Denver lines would produce peanuts in profitable quantities. There is something more to peanuts today than the nickel bag of roasted peanuts bought on the street corner.

"The hog has entered into competition with man in the consumption of peanuts and experiment stations of more than one State claim that peanuts as flesh producers are worth 75 cents per bushel when hogs are worth 6 cents per pound and $1 per bushel with porkers worth 8 cents per pound.

"Cattle and horses eat peanut hay and thrive as well as they do on the choicest alfalfa. In 1913 it is said that Stephens county, Oklahoma, produced $900,000 worth of peanuts, the nuts worth $600, the hay $300. This may be overdrawn but we know that the Texas farmer has received around $1 per bushel for all the peanuts he has offered this season.

"The short feed crops all over the Southwest has caused prices of all kinds of hay to reach unheard levels. We want to emphasize the fact that the farmer who had a few acres planted in peanuts last season is dollars ahead of the man who neglected to paint this sure and paying crop. The great increasing demand for peanuts for commercial purposes will insure the maintenance of the present prices or increase the same, so our farmers may plant and rest assured that the cry of over production of peanuts will not ring in their ears this fall.

Preparing Seed Beds.

"The land should be prepared just the same as for corn or cotton; turned and well harrowed. This should be done as early as possible. After each rain between breaking and planting, the land should be either harrowed or disced light; the very course, white sandy soil will not bear harrowing, for to do so would cause the land to blow.

Time To Plant.

"Beginning on the south end of the Denver lines, I think about April 15th and make it five days later for every 100 miles north. This is based on an average season. Peanuts require as little work as any spring crop. Every operation in their cultivation can be done by machinery and require no tedious cultivation. Some farmers complain that they are unable to get a stand of peanuts on account of mice, moles, gophers, etc.

How To Secure a Stand.

"First, get good seed; hand pick them, plant none but full, plump and light golden pods. If you have an acre to plant, get one and one-half bushel of good seed, take a five cent bar of any good laundry soap, dissolve in one gallon of boiling water and add one-half pint of kerosene and stir for ten minutes. Have your peanuts in a barrel or tub, then add enough cold water to your mixture to just cover the peanuts. You will have to weight the peanuts down. Leave your peanuts to soak for one and one-half or two days. Take them out and plant in moist soil and you will have a stand in from three to five days and rest assured that no rat, mouse, crow or any other pest will rob your seed bed.

"We make this appeal to our farmers, for we believe that it is to their interest to plant at least a small acreage in this great paying product.

"The family eat peanuts; the horses, cattle, hogs, chickens and turkeys eat peanuts; why not raise peanuts?"

I am now located at 710½ Indiana avenue in the Bean-Anderson building. Phone 586. Dr. J. S. Nelson, dentist. 201 1tc

CONSTABLE FRANK BURNS NOT A RICH MAN

A few weeks ago the Times made mention of the fact that Constable Frank Burns had been handed a check by Reese S. Allen for something in the neighborhood of $50,000, which was in settlement of a judgment against parties who owned lands in Specht Colony and which had been acquired by Mr. Allen.

It seems that many gained the impression that Constable Burns received this amount as his fee, but that is where they are mistaken. He says he is sorry to say that that he only got as his fee in that case the sum of $100, which, considering it was the largest judgment ever collected in this county by a constable o rsheriff, was very small. "If I had that much money I would not be ruunning for office," remarked Mr. Burns, and for fear that some may thing he did, and for that reason vote for some other candidate he wants to correct the report.

What We WON'T DO to Get Customers

We like to do business—we enjoy it—nothing fascinates us more than trading.

But we will not stoop to deceit and deception to get business.

We will not over-state, over-talk and over-promise.

And altho we do not go to every extreme to *get* customers, we do go to every extreme to *hold* them.

Our diamonds would win you even if our methods didn't.

But we keep our "conduct" abreast of our efforts, and therefore you can deal with us with satisfaction, with profit, with pleasure—and with safety!

MOTHER'S COFFEE

You remember the cup of coffee your mother made way back yonder at the Homestead. In memory you still smell its delightful aroma, taste its rich mellow flavor and feel its exhilarating influence—a morning benediction.

Mother didn't have as good coffee as you get now, as coffee at that time was in the hands of semi savage tribes and was poorly cultivated and handled. Mother made it in an old tin coffee pot. BUT MOTHER DID HAVE FRESH ROASTED COFFEE. She roasted it herself in the oven—a day's supply at a time. It wasn't roasted in Boston, New York or Chicago. It didn't lay in dirty box cars and depots nor linger on the grocers' shelves for weeks and perhaps months before it reached your kitchen, so in spite of inferior coffee and inadequate apparatus mother made a dandy cup of coffee. You can make a better one if you buy your coffee of us for you will get the very best of fine old mild growths of coffee intelligently blended to get the best results in the cup and fresh roasted—in up to date roasting machinery.
